

NOTICE INVITING WRITTEN PUBLIC COMMENTS

NOTICE is hereby given that the Air Pollution Control Officer of the Bay Area Air Quality Management District has made a preliminary decision to issue a significant modification to the Major Facility Review Permit for the following facility:

Application #	Plant #	Plant Name	Address City	Type of Operation
25841	B1180	Calpine Gilroy Cogen, L.P.	1400 Pacheco Pass Highway Gilroy, CA 95020	Generation Electricity

The significant modification is to the BACT determination for source S-100, turbine. The previous BACT determination required 80% destruction of carbon monoxide (CO) by the CO catalyst at all times. The new BACT determination requires CO concentrations below 10 ppm @ 15% oxygen, except during limited periods of startup, shutdown, part-load operation, fuel oil testing, or when inlet temperatures are below 35 degrees F. The annual CO limit will remain at 100 tons per year. There will be no emissions impact beyond the emissions impact that was planned for in the original application #30331, submitted on 8/20/84.

The Air Pollution Control Officer invites written public comment on the above application and intended action. Comments must be received by 30 days from the date of this publication. Any member of the public may request a public hearing to discuss issuance of a particular permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed permit and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the issuance of the permit.

The proposed Major Facility Review permit and the application are available for public inspection at the District Headquarters, 939 Ellis Street, San Francisco, CA 94109, in the Permit Services Division, 3rd Floor. Comments should be directed to the District's Permit Services Division.

Dated at San Francisco, the 27th **day of** October, **1998.**

Ellen Garvey
Executive Officer/Air Pollution Control Officer
Bay Area Air Quality Management District
